

MUNICIPALITÉ DE  
**LAC-TREMBLANT-NORD**

---

**Saturday, June 17 - Environment Day and information session (Protected Area project)**

As Lac-Tremblant-Nord is very focused on the protection of the environment and biodiversity, the municipality will be holding an **Environment Day on Saturday, June 17, from 10 AM to 2 PM, at the [PLTN marina \(454 Chemin de Lac Tremblant Nord\)](#).**

***\*In case of rain, the event is postponed to the following day, Sunday, June 18, at the same time and same location\****

During this day, which will take place outside at PLTN :

- Various organizations ([SNAP Québec](#), [Éco-corridors laurentiens](#), [SÉPAQ](#), [Sûreté du Québec \(SQ\)](#), [Ville de Mont-Tremblant Fire Department](#)) will have information booths on site to discuss with our citizens good environmental practices to adopt, and the importance of protecting biodiversity;
- Activities are also planned for children (including a visit of the Ville de Mont-Tremblant's fire truck);
- Prizes for children and adults will be drawn among participants; and
- A FREE BBQ will be served for the occasion.

At the event, if you are a PLTN member, you can use the marina's parking lot. Otherwise, in order not to overcrowd the marina's parking lot on this busy weekend, we would ask that you please park your car along chemin de Lac-Tremblant-Nord.

We will provide limited outside seating at the event, but for citizens who wish to sit in the sun and enjoy the weather, we would encourage you to bring a folding or camping chair if you have one.

We hope to see many of you at the event!

**Information session - Lac-Tremblant-Nord Protected Area project**

As the municipality wishes to continue its efforts to protect the environment and biodiversity, Lac-Tremblant-Nord has initiated, jointly with *Les Amis de Lac-Tremblant-Nord* and the [Canadian Parks and Wilderness Society \(SNAP Québec\)](#), a project aimed at creating a protected area and reinforcing an ecological corridor on the municipality's public territory.

Benefiting from strategic guidance and financial support from SNAP Québec, this project's mission is to ensure the protection of biodiversity, the preservation of the integrity of ecosystems (including water quality of lakes, rivers and fish habitats) and the maintenance of the integrity of the landscape of Lac-Tremblant-Nord.

In order to present the project to the citizens of Lac-Tremblant-Nord and to answer questions regarding the project, **an information session is planned, in person at the PLTN marina, on Saturday, June 17 from 10 to 11:30 AM (before the start of the Environment Day activities beginning at 11:30 AM).**

During this information session, a PowerPoint presentation of the project will be presented, and citizens will be able to interact with our various partners, experts in biodiversity protection, who are accompanying us in the project.

If you have any questions regarding the Environment Day or the information session regarding the municipality's Protected Area project, please do not hesitate to contact us by phone (819-425-8154) or by email ([communications@lac-tremblant-nord.qc.ca](mailto:communications@lac-tremblant-nord.qc.ca)).

Thank you for your attention!
